

# Year 6

## Autumn 2 Learning

We will be expressing our artistic skills by using different styles whilst also sharing our opinions on a range of artwork by identifying the meaning behind an artist's work!

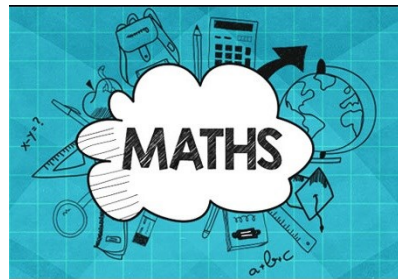

Our PE session will be on a **MONDAY** this half term. We will use basic shapes and apparatus within gymnastics to create some amazing floor routines!

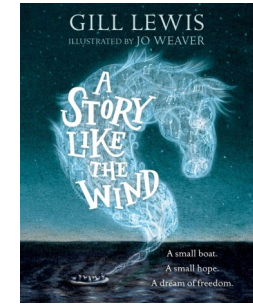

Our Geography topic this half term is a local area study. We will be using Ordnance Survey maps to identify key points within Gedling. Additionally, we will use 4 and 6 figure grid references to help us use maps correctly.

We are continuing to explore the facts of World War 2 within our History unit. We will investigate the reasons behind the outbreak of WW2 and the key events within WW2.

In maths, our first unit will focus on equivalent fractions and how to simplify them. We will then move on to adding and subtracting fractions before introducing mixed numbers and multi-step problems involving fractions. This leads us to our second unit this term which involves multiplying and dividing fractions!

Our English sessions will continue to follow our ReadySteadyWrite scheme, which we started last year. We will be taking a closer look at the "Story like the Wind" text within our writing lessons. This text will also support our shared reading sessions.

Our computing lessons will teach children how to navigate the internet in an informed, safe and respectful way. We will also investigate how to behave appropriately online; linking in with Anti-Bullying week.
