What's been happening this week.

There has been lots of geography going on in school this week- I have given out some head teacher awards for some fantastic balanced arguments in Year 5 where they were showing the advantages and disadvantages of living in a district in Brazil. Year 4 were also excited to tell me about their work on rivers that they were working on this week – it is lovely to see children so engaged with other subjects and enjoying learning about new countries and rivers across the world.

Sadly today is a reminder that even though the Covid cases are dropping significantly across the country that there is still Covid in our local community as Class Mufasa needs to close for self- isolation today and remain in self -isolation for 10 days. We hope that the person who is ill will make a speedy recovery.

It is a reminder to keep a close check for Covid symptoms in your household and to continue to follow handwashing and social distancing guidance.

Thank you to all of you who have supported our NSPCC number day today. We hope the children have had fun, learnt even more about how they can stay safe and thank you for your support in raising money for this worthy cause. We hope you have a restful weekend. Mrs Brown

Online Safety

As part of our RSHE programme and our work with the NSPCC we have highlighted the importance of E safety. We have however found out that some of our children have been befriending unknown people whilst playing games online and there is some obvious dangers in doing so. We have spoken to these children and their families about this and reminded them of how to keep safe online but wanted to remind all our our parents and carers of the importance of checking what your child is doing online. I have included a link to a website that although was designed to support parents of children with SEND with ensuring their online safety has some excellent strategies and advice for all parents – hope it might be useful <https://www.net-aware.org.uk/send-online-safety-hub/>
